Education

Dwarkadas J. Sanghvi College of Engineering

Mumbai, India

B.Tech in Computer Engineering — CGPA: 9.06

2023 – 2027

Navneet Junior College

Mumbai, India

HSC — 85.50 %

2021 – 2023

Relevant Coursework

- Web Development
- Database Management
- Game Development
- Backend Engineering
- Data Structures
- Compiler Design

Work Experience

• GOCO Language | *Software Developer Intern*

Jan – May 2026

- Built a JavaCC-based compiler for a beginner-friendly programming language designed for 5th–6th grade students.
- Designed and implemented lexical analysis, parsing, semantic validation, and code generation components.
- Developed the official website and browser-based IDE using modern web technologies.
- Collaborated closely with 4+ language designers and educators to translate educational requirements into language features and interactive compiler functionality that improved the learning experience for 200+ students.

• Quickyearning Pvt Ltd | *Fullstack Developer Intern*

Jan – Apr 2025, Jul – Sep 2025

- Developed and deployed 200+ REST APIs and 3 WebSocket services in FastAPI and Django with MongoDB and improved frontend–backend synchronization, enabling real-time features used by 500+ daily users.
- Collaborated with 20+ developers across 4 projects, reducing API response times by 25%.

• DJS Unicode | *Fullstack Django Mentor*

June 2024 – May 2026

- Started as a mentee and later became a mentor, guiding 10+ juniors and sharing practical knowledge across the team.
- Worked across multiple fullstack Django–React projects, contributing to architecture design, features, and code reviews.

Projects

• Minecraft Clone (OpenGL Engine) | *Java, OpenGL, GLSL*

Nov 2025 – Present

- Built a GPU-accelerated voxel engine in Java using OpenGL with chunk rendering and face culling.
- Implemented texture atlas, player movement physics, wireframe mode, and VBO-rendering for higher FPS.
- Designed an efficient block mesh generation system, reducing vertex count and minimizing draw calls.

• LetsChess2 | *FastAPI, React, WebSockets*

June 2026 – Present

- Built a fullstack real-time multiplayer chess platform using FastAPI and React through WebSocket and HTTP APIs.
- Designed and implemented custom chess bots with game-state evaluation and move generation logic.
- Handled gameplay edge cases, synchronized live game state across clients, and integrated a responsive React frontend.

• BlogWritingAI | *React, FastAPI, LangGraph, Groq, Ollama, MongoDB*

May – June 2026

- Built a full-stack platform featuring a multi-agent AI pipeline to autonomously research, outline, and write comprehensive markdown blog posts.
- Orchestrated LangGraph workflows utilizing specialized LLM agents and integrated the Tavily API for real-time web scraping and evidence deduplication.

Technical Skills

Languages: Python, JavaScript, Java, JavaCC, C, GLSL, SQL (MySQL), HTML, CSS

Frameworks: FastAPI, Django, DRF, React.js, Node.js, Next.js, OpenGL, Pygame, Electron, p5.js, Processing, LangGraph

AI/LLMs: Gemini AI, Groq, Ollama

Databases/Tech: MongoDB, REST APIs, WebSockets, JWT Authentication

Tools: Git, Google Cloud, Postman, Maven, Figma, Blender

Co-curricular Activity

Event Organizer, Celestia - Managed publicity, logistics, and creative design for 200+ participants at DJ Sanghvi event.

Winner, Chakravayuh Quiz Competition (Oct 2024) - 1st place in team quiz on Indian history. Helped win Best Department Award. Showcased strong analytical, teamwork, and decision-making skills.

Beach Cleanup Drive - Volunteered at Girgaon Chowpatty to support environmental restoration.

School Football Team - Led team to 8 consecutive MSSA titles, building leadership and teamwork skills.
