## Education

Dwarkadas J. Sanghvi College of Engineering

Mumbai, India

B.Tech in Computer Engineering — CGPA: 9.06

2023 – 2027

Navneet Junior College

Mumbai, India

HSC — 85.50 %

2021 – 2023

## Relevant Coursework

- Web Development
- Database Management
- Game Development
- Backend Engineering
- Data Structures
- Compiler Design

## Work Experience

**GOCO Language** | Software Developer Intern

Jan 2026–Present

- Building a JavaCC compiler for GOCO, a beginner-friendly language designed for 5–6th grade students.
- Developing the official website and IDE using modern web technologies.

**Quickyearning Pvt Ltd** | Fullstack Developer Intern

Jan–Apr 2025, Jul–Sep 2025

- Developed and deployed 200+ REST APIs in Django and 3+ WebSocket services in FastAPI with MongoDB and improved frontend–backend synchronization, enabling real-time features used by 500+ daily users.
- Collaborated with 20+ developers across 4+ projects, reducing API response times by 25%.

**DJS Unicode** | Fullstack Django Developer

Jun 2024 – Present

- Started as a mentee and now work as a mentor, guiding juniors and sharing practical knowledge across the team.
- Worked across multiple fullstack Django–React projects, contributing to architecture design, features, and code reviews.

## Projects

**Minecraft Clone (OpenGL Engine)** | Java, OpenGL, GLSL

Nov 2025 – Present

- Built a GPU-accelerated voxel engine in Java using OpenGL with chunk rendering and face culling.
- Implemented texture atlas, player movement physics, wireframe mode, and VBO-rendering for higher FPS.
- Designed an efficient block mesh generation system, reducing vertex count and minimizing draw calls.

**BlogWritingAI** | React, FastAPI, LangGraph, MongoDB

May – June 2026

- Built a full-stack platform featuring a multi-agent AI pipeline to autonomously research, outline, and write comprehensive markdown blog posts.
- Orchestrated LangGraph workflows utilizing specialized LLM agents and integrated the Tavily API for real-time web scraping and evidence deduplication.

**LetsChess2** | Django, React, WebSockets

Jun – Jul 2025

- Built a fullstack chess platform with real-time multiplayer using Django Channels and WebSockets.
- Handled all edge cases, implemented smooth gameplay, and integrated React frontend for live matches.

**Small Projects** | Django, React, Tailwind CSS

June – Jul 2025

- **N-Queens Visualizer**: Solves and displays all solutions with rotation/mirror filters and an interactive UI.
- **Spotify Songs Recommender**: Recommends songs based on playlist mood and genres using Spotify API.

**Python Games (Pygame)** | Python, Pygame/Pygame-CE

May – Jun 2024

- Developed games like Monster Shooter, Pong, Snake, and Space Shooter with AI and responsive controls.

## Technical Skills

**Languages:** Python, JavaScript, Java, JavaCC, C, SQL (MySQL), HTML, CSS

**Frameworks:** FastAPI, Django, DRF, React.js, Node.js, Next.js, OpenGL, GLSL, Pygame, Electron, p5.js, Processing

**Databases/Tech:** MongoDB, REST APIs, WebSockets, JWT Authentication

**Tools:** Git, Google Cloud, Postman, Maven, Figma, VS Code, Blender

## Co-curricular Activity

**Event Organizer, Celestia** - Managed publicity, logistics, and creative design for 200+ participants at DJ Sanghvi event.

**Winner, Chakravayuh Quiz Competition (Oct 2024)** - 1<sup>st</sup> place in team quiz on Indian history. Helped win Best Department Award. Showcased strong analytical, teamwork, and decision-making skills.

**Beach Cleanup Drive** - Volunteered at Girgaon Chowpatty to support environmental restoration.

**School Football Team** - Led team to 8 consecutive MSSA titles, building leadership and teamwork skills.
