Education

Dwarkadas J. Sanghvi College of Engineering

Mumbai, India

B.Tech in Computer Engineering — CGPA: 9.04

2023 – 2027

Navneet Junior College

Mumbai, India

HSC — 85.50 %

2021 – 2023

Relevant Coursework

- Web Development
- Database Management
- Game Development
- Backend Engineering
- Data Structures
- Compiler Design

Work Experience

- **GOCO Language** | *Software Developer Intern* **Jan 2026 – May 2026**
 - Created a JavaCC-based compiler for a beginner-friendly programming language designed for 5th–6th grade students.
 - Engineered 6 compiler stages, including lexical analysis, parsing, semantic validation, and code generation.
 - Delivered the official website and browser-based IDE with 20+ interactive compiler features, engineering an intuitive interface tailored for beginner programming students.
 - Collaborated with 4+ language designers and educators to translate educational requirements into language features and interactive compiler functionality that improved the learning experience for 200+ students.
- **Quickyearning Pvt Ltd** | *Fullstack Developer Intern* **Jan 2025 – Apr 2025, Jul 2025 – Sep 2025**
 - Developed and deployed 200+ REST APIs and 3 WebSocket services using FastAPI, Django, and MongoDB, enabling real-time functionality for 500+ daily users while improving frontend-backend synchronization.
 - Collaborated with 20+ developers across 4 production projects, optimizing backend services through Redis-based caching and performance tuning to reduce API response times by 25%.
- **DJS Unicode** | *Fullstack Django Mentor* **Jun 2024 – May 2026**
 - Progressed from mentee to mentor, guiding 10+ juniors and sharing practical knowledge across the team.
 - Contributed to 5+ Django–React projects, involving architecture design, feature development, and code reviews.

Projects

- **Minecraft Clone (OpenGL Engine)** | *Java, OpenGL, GLSL* **Nov 2025 – Present**
 - Engineered a GPU-accelerated voxel engine in Java using OpenGL with chunk rendering and face culling.
 - Implemented texture atlas rendering, player movement physics, wireframe mode, and VBO-rendering for higher FPS.
 - Optimized block mesh generation, reducing vertex count by ~60% and minimizing draw calls.
- **LetsChess2** | *FastAPI, React, WebSockets* **Jun 2026 – Present**
 - Architected a fullstack real-time multiplayer chess platform using FastAPI, React, WebSockets and REST APIs.
 - Created 7 custom chess bots with game-state evaluation and move generation logic.
 - Resolved 20+ gameplay edge cases, synchronized live game state across clients, and integrated a responsive React frontend.
- **BlogWritingAI** | *React, FastAPI, LangGraph, Groq, Ollama, MongoDB* **May 2026 – June 2026**
 - Developed a full-stack platform featuring a multi-agent AI pipeline to autonomously research, outline, and generate markdown blog posts.
 - Orchestrated a 5-agent LangGraph workflow coordinating specialized LLM agents and the Tavily API for automated research and evidence deduplication.

Technical Skills

Languages: Python, Java, JavaScript, C, SQL (MySQL, PostgreSQL), JavaCC, GLSL, HTML, CSS

Frameworks: FastAPI, Django, Flask, DRF, React.js, Node.js, Next.js, OpenGL, Pygame, Electron, p5.js, Processing, LangGraph

AI/LLMs: LLMs, Prompt Engineering, Gemini API, Groq API, Ollama

Databases/Tech: MongoDB, Supabase, REST APIs, WebSockets, JWT Authentication

Tools: Git, Google Cloud, Postman, Maven, Figma, Blender

Co-curricular Activity

Event Organizer, Celestia - Managed publicity, logistics, and creative design for 200+ participants at DJ Sanghvi event.

Winner, Chakravayuh Quiz Competition (Oct 2024) - 1st place in team quiz on Indian history. Helped win Best Department Award. Showcased strong analytical, teamwork, and decision-making skills.

Beach Cleanup Drive - Volunteered at Girgaon Chowpatty to support environmental restoration.

School Football Team - Led team to 8 consecutive MSSA titles, building leadership and teamwork skills.
